Salt Lake City, Sept. 16, 1882.
D. BOCKHOLT, Sec'y.

LATEST TELEGRAMS.

EGYPT.

Additional Details of the Surrender.

Alexander 15.—General Wolsley has written Gagawb Pasha, Arabi Pasha's late under-minister of war, to Kafr El Dwar to arrange for the surrender of that place.

News of the capture of Arabi was received by the Arabs here with what was apparently the wildest enthusiasm. Mahmoud Baroudi and Duellman Sami who commanded the battalion which took the leading part in the burning of Alexandria, were recalled from Salihiz by their friends and fled to Upper Egypt. Ali Fahmy and Rashed Pasha were not captured at Tel El Keber, but it is believed they have since been arrested at Cairo.

The enemy's troops from Nehalet Aboukir and Kafr El Dwar will parade at the front here. Those from Nehalet on Sunday, when they will surrender their arms and be stripped of their military dress and disbanded in presence of all the troops of General Wood. In many instances the wounded Arabs fled on the English after they had passed them. Lord St. Vincent cut down a native standard bearer and captured his colors. There were lamentable casualties on the enemy's side, old men and children were killed and this was unavoidable, owing to the fact that Egyptians kept up a straggling fire from their mud holes. This brought the English fire upon non-combatants. Without our siege train the position of Arabi Pasha at Kafr El Dwar was unassailable. Cannon provisions for 20,000 men for a month were captured at Tel El Keber. The Khedive did not receive Boutros Bey and other delegates from Cairo, as they were merely bearers of a letter from Arabi Pasha offering submission and were not accompanied by notables as expected. After the arrival of the Khedive at Cairo a regularly constituted court will be established for the public trial of rebel chiefs, who will be allowed to engage counsel.

The British moved forward at 4 this afternoon to disarm 4,000 men at Kafr El Dwar, wherefrom a train has just started with orders to surrender to General Wolsley. General Wood has issued orders prohibiting any correspondent going forward. Engineers have just returned, and report Kafr El Dwar abandoned. They saw many skeletons there. The rebels are supposed to have gone to Aboukir forts. Twelve thousand prisoners have already marched back to Ismailia. It is believed that Malet, British consul general has telegraphed to General Wolsley the names of seven persons answerable for the rebellion, and whose arrests are desirable.

Ismailia, 15.—Egyptian officers were brought in this morning. Tel El Keber, 15.—Egyptian doctors state that when Arabi Pasha was making off by railway to Zagazig he was fired on by one of his own officers. Another prisoner reports that Arabi was wounded, but this is doubtful.

London, 15.—An Alexandria dispatch says Arabi Pasha surrendered to General Makhroum, "I am Arabi Pasha. This is Toubba Pasha." Notwithstanding the collapse of the Egyptian rebellion, the preparations in English arsenals up to last night were unrelaxed. Fresh orders were given yesterday for additional supplies for Egypt. London, 16.—Correspondents in Egypt telegraph that all military posts in Cairo are occupied by British troops. The city is perfectly safe. Roubi Pasha says Arabi Pasha was in bed when the attack on Tel El Keber began, and was panic stricken at its suddenness. Abeyd Pasha was killed in the battle. Gen. Wood, with the Ramlah troops, will proceed to Kafr El Dwar, on Sunday, to take possession of the camp of rebels there, and receive the arms. The Italian naval lieutenant, who it is supposed had joined Arabi Pasha, has been discovered in the hospital at Kafr El Dwar suffering from the effects of ill usage. The Egyptian gunners have a clean, well fed look. The perfect order in camp was most striking. The arms were well kept. The rebel troops seemed depressed at to-day's news. Arabi's officers declared our artillery caused them little or no loss. Between Ismailia and Zagazig the maize cotton crops are in a splendid condition. Fellahs have been working quietly and their occupation was well timed. The cotton harvest begins to-day. Telegrams from the governor of Benha-EI-Assal to the governor of Zagazig, ordering him to cut the canal and flood the country has been intercepted by the British.

Dublin, 15.—A general movement is afoot to present Gen. Wolsley with a sword of honor on his return from Egypt. Alexandria, 16.—After the engagement of Tek-El-Keber Arabi Pasha fled to Cairo, and told the council that the British troops had defeated him, upon which a mission was sent to the Khedive, with two letters from Arabi Pasha, one expressing his devotion, and the other warning him not to allow the Eng-

lish to enter Cairo, as the same result might follow as happened at Alexandria. The Khedive refused to receive the letters. Arabi Pasha was taken before the Khedive to-day. He presented a loathsome picture of grovelling servility. He swore he was not aware that he was fighting against the Khedive. The Khedive remained standing while Arabi Pasha was in his presence. When Arabi had concluded the Khedive ordered his removal. The Egyptian guns at Kafr-El-Dwar were partly concealed. General Ward's brigade goes to Cairo by rail.

Several prisoners brought in have been identified as participants in the massacres. All Egyptian soldiers who were at Malluhah left that post and quit the army. General Wood occupied Kafr El Dwar and Malluhah this afternoon.

The Khedive has learned that the commander at Damietta refuses to surrender. He has 5,000 black troops. Hussan Pasha Cheri, Arabi's minister, Peons and Kumal Pasha, have been arrested in Alexandria. Mahmand Pasha Baroudi has been arrested near Cairo.

St. Petersburg, 16.—The Gazette de St. Petersburg says: To allow England to settle the Egyptian question without consulting the powers will not be thought of.

London, 16.—The Times, in a leading article, says: If the lives of Arabi Pasha and his immediate followers are spared, these men must be put once for all out of the way of doing further harm. They cannot be permitted to retire to Constantinople to become the centre of impalpable intrigues to restore the authority of the Khedive. The army must be disbanded and replaced by general armories sufficient to maintain civil order. If troops are needed to defend the distant frontier it is sufficient to maintain them on the frontier and not keep them at Cairo.

London, 16.—Gladstone asked the Archbishop of York to direct thanksgiving services to be held in churches to-morrow for the success in Egypt.

Cairo, 16.—Some natives accused of murder assisted by a mob, attempted to escape from the police station, but the native guards fired upon the crowd and quelled the disturbance.

Doubting the Performance.

Chicago, 16.—Much discussion arises over the reported performance of Vanderbilt's new double team at Hartford—mile in 2:16½. There is no doubt of the record made by Mr. Work with "Dick Swiveller" and "Edward," the fastest previous mile, 2:16½. This race was, however, run by Vanderbilt's team after all. The sporting men had left Hartford, and it is regarded as a very unusual method of speeding a team, especially as the four time keepers who vouch for the performance are unknown to turf men. The impression prevails that neither the performance nor time were a genuine test.

Chicago Horse Fair.

Chicago, 16.—The Chicago horse fair for 1882 began in the Driving Park this afternoon. The only important trot to-day was the 245 class, \$1,000, divided—nine started. The race resulted, "Cleora" 1, 1, 1, "Adelaide" 2, 2, 2, "Minnie Sprague" 3, 3, 3, "Castenard" 3, 4, 4. Then followed "Trump," "J. R. Henderson," "Queen," "Home-made," and "Mambono Startle." Time, 2:27½, 2:22½, 2:25½. The match race between "Ernest Green" and "Franklin G." was won by the latter in 2:46. The purse was \$200.

The track was in fine condition, the attendance fair, weather and all prospects favorable. Many fine horses are on the track and next week's races will be interesting.

Casualties.

Boston, 16.—A private dispatch states that the steamer Yorkshire bound for New York with a cargo of tea is a total loss on the Chinese coast.

Cleveland, O., 16.—A special freight train on the Lakeshore road telescoped a cattle train this morning near Berea. A considerable number of cattle were killed and more wounded, and several train hands were severely injured.

Hauler Accepts.

Toronto, Ont., 16.—Hauler accepts Ross' challenge to row for \$2,500 and the championship of the world two weeks from signing the articles.

Criminal Calendar.

Indianapolis, 16.—Mrs. Walton was sentenced for life in the penitentiary for the murder of her husband.

Berlin, 16.—Bathassar, a green socialist, hung himself in prison.

Petroleum.

Pittsburg, 16.—Oil was very much excited again to-day and the wild scenes of the past few days were repeated in the exchange. The market opened very strong at 63½ and steadily advanced until the close this afternoon when 74½ was bid. The sales aggregated, 4,435,000.

SENATOR MILLER.

He Talks California Politics to a Chicago Reporter.

Chicago, 16.—United States Senator John F. Miller, of California, arrived in the city yesterday evening from the east, on his way home with his family, not having been in California since November, when he left to attend the session of the Senate. He left at noon to-day. A reporter called on the Senator and had an interesting talk on California politics. I have been away so long, said the Senator, that I do not know as I can tell you anything of general interest. We have a state election, electing a governor, state officers, members of the two houses, and two congressmen-at-large. The legislature failed to redistrict the state, and the two new representatives we have to elect at large.

What are the prospects for the election?

Well, that is rather hard to say. California, as you know, is very close. I was defeated for elector in 1874 by only seventy-four majority. At present it is hard to give any prophecy. The First district, where Rosecrans is running, is democratic, but republicans have a good candidate, and the district may be called doubtful. The Second district (Page's) is overwhelmingly republican, and he ought to come in with 5,000 majority. The state was districted in that way. The Third district is largely democratic, and the Fourth is doubtful. Pacheco has not been renominated, but republicans have put up a Mr. Woods, a good candidate. The result there also is doubtful. Although there are two republican districts you see there is one democratic and one republican district, and two doubtful. The Congressmen elected at large will naturally go with the state ticket, which is liable to go either way.

How is the legislature? I was elected by a majority of 18 on joint ballot. There are 40 senators to be elected now, who will hold over and have a voice in the election of the next United States Senator. Of course there is a fight over these on the senatorial question. The assemblymen will be elected from their districts on purely party issues. I believe the republicans will have a majority. Then the republicans will do the redistricting?

The indications point that way. The state at present is districted in the interests of democrats. Whether it only happened so or was done purposely I cannot say.

Is prohibition cutting much of a figure in California politics?

Well, there is some little question over the Sunday law. There is no third party in this question on the state ticket, and what light there is is being made on local candidates. I don't think it will amount to much. Sunday is as well observed in California as anywhere else, and I cannot see how the question can amount to much. Both parties have touched upon it, and it will cut into both about evenly.

Is your Chinese bill working satisfactorily?

It seems to be. The object was to keep out Chinese labor, and it is doing that. Of course some of the people are still arguing against employing Chinese labor, but the importation of Chinese has ceased, and the evil will decrease.

Are republicans getting any benefit from having passed the bill?

Well it is not doing us any harm. Both sides claim the credit for the measure. I introduced the bill, and my colleague, Senator Farley, had not introduced a bill in spite of the fact that he had been in the Senate two years. I got the bill introduced in the House by Congressman Page, one of the California representatives, and myself pushed it in the Senate. Then I modified it to suit the President, and it was passed by these facts, but democratic say it could not have been passed without democratic votes. It at least does not hurt us, if it is not a positive benefit.

Does the river and harbor bill enter into the campaign at all?

I hardly think it does. In fact I believe our people are satisfied with it. The Pacific Coast got about \$1,000,000 out of the \$19,000,000, and we have about 1,000,000 people. There is a good deal of selfishness in this thing, as in all others. Other sections of the country oppose it because it does not benefit them. I know that in our section improvements are needed, and I presume some in other sections. I have only the reports of the engineers, and I presume they are correct. I think, myself, we are spending too much money, but still it seems as if this money would be judiciously expended. I know different localities often did not receive half what the engineers called for. Then again the items for the Mississippi improvements amounting to \$5,000,000; the Potomac and others were not properly in this bill. They were outside matters. On the whole I can say that I don't regret having voted for this bill and would vote so again.
